

# INTERFLAM 2019 TABLE OF CONTENTS

## CONFERENCE PAPERS

Preface.....	iii
Interflam 2019 Sponsors.....	xiv
Author Index	
Late Papers	
<b>NEW TEST METHODS</b>	
Ignition of Pre-Heated Flammable Vapor Clouds in Obstructed Environments: Flame Propagation and Flame Arrester Performance <i>Joshua Dinaburg &amp; A Kapahi, S Lakshmipathy, Jensen Hughes, USA.....</i>	001
Development of New Intermediate-Scale Box Test on Sandwich Panel Products Pertaining to the Correlation with ISO 13784-1 Room Test <i>Hideki Yoshioka, NILIM, T Noguchi, T Ando, The University of Tokyo, K Kobayashi, M Kanematsu, Tokyo University of Science, S Pareek, Nihon University &amp; T Hayakawa, TSV, Japan .....</i>	013
Evaluation of Mitigation Strategies for Propagating Thermal Runaway in Lithium Ion Battery Packs <i>Christopher Lee, A Said, S Stolarov, University of Maryland, USA.....</i>	025
Novel Test Bench for Extreme Fire Scenario: Experimental and Numerical Modeling Studies <i>Roland Adanmenou, F Samyn, M Jimenez, S Duquesne &amp; S Bourbigot, ENSCL, University of Lille, France.....</i>	037
<b>MASS TIMBER</b>	
Enclosure Fire Model for Mass Timber Construction – Benchmarking with a Kinetic Wood Pyrolysis Submodel <i>Colleen Wade, BRANZ Ltd, New Zealand, D Hopkin &amp; M Spearpoint, OFR Consultants, UK, J Su, NRCC, Canada &amp; C Fleischmann, University of Canterbury, New Zealand.....</i>	047
Development of a Fire Performance Assessment Method for Qualifying Cross- Laminated Timber Adhesives <i>Marc Janssens &amp; A Joyce, SwRI, USA.....</i>	061
Enclosure Fire Dynamics with a Combustible Ceiling <i>Robert McNamee, Brandskyddslaget, Sweden, J Zehfuss, Technische Universitaet Braunschweig (iBMB), Germany, A Bartlett, L Bisby, The University of Edinburgh, UK &amp; M Heidari, F Robert, CERIB Fire Testing Centre, France.....</i>	073
Thermo-Mechanical Behaviour of Cross- Laminated Timber Slabs Under Standard and Natural Fires <i>Jean-Christophe Mindeguia, I2M, University of Bordeaux, France, S Mohaine, F Robert, CERIB, France, L Bisby, A Bartlett, University of Edinburgh, UK &amp; R McNamee, Brandskyddslaget, Sweden ...</i>	085
Fire Performance of Moment-Resisting Concealed Steel-Glulam Frame Connections <i>Christian Gonzalez Crespo, G Hadjisophocleous, Carleton University &amp; O Salem, Lakehead University, Canada .....</i>	099
<b>MEASUREMENT CHALLENGES</b>	
Time-Resolved 3D Temperature/Displacement Measurements for Investigating the Fire Behaviour of Composite Materials <i>Gillian Leplat, Y Le Sant, P Reulet &amp; T Batmalle, ONERA – The French Aerospace Lab, France.....</i>	113
Application of High Emissivity Heat Flux Data to Low Emissivity Surfaces <i>Christian Rippe &amp; B Lattimer, Jensen Hughes, USA.....</i>	125
Small-scale Test on Thickness of Ceiling Jet in Tunnel Fire under Natural Ventilation <i>Yuki Yamauchi, Railway Technical Research Institute/ Yokohama National University, S Saito, Railway Technical Research Institute &amp; Y Oka, Yokohama National University, Japan.....</i>	135

## FACADES

An Holistic Approach for Fire Safety Requirements and Design of Facade Systems <b>Patrick van Hees</b> , Lund University, Sweden, <b>M Stromgren</b> , Lund University/BRIAB, Sweden & <b>B Meacham</b> , Meacham Associates, USA.....	145
Fire Risk Assessment of High Rise Buildings With Combustible Exterior Wall Assemblies: NFPA's EFFECT™ Tool <b>Birgitte Messerschmidt</b> , NFPA & Susan Lamont, Arup, USA .....	157
Facades:What are the Requirements in the USA? <b>Marcelo Hirschler</b> , GBH International, USA .....	169
Changes in Facade Regulations <b>A Hofmann</b> , BAM, Germany & <b>Alex Webb</b> , CSIRO, Australia.....	183
Fire Performance Evaluation of Cladding Wall Assemblies Using the 16-Ft High Parallel Panel Test Method of ANSI/FM 4880 <b>Gaurav Agarwal</b> , Y Wang & S Dorofeev, FM Global, Research Division, USA.....	199
European Approach to Assess the Fire Performance of Facades <b>J Anderson</b> , L Bostrom, RISE Research Institutes of Sweden, Sweden, <b>R Chiva</b> , E Guillaume, EFECTIS France, <b>S Colwell</b> , BRE, UK, <b>Anja Hofmann</b> , BAM, Germany, <b>P Toth</b> , EMI LLC, Hungary..	213
A New Test Method to Determine the Fire Behaviour of Facades With ETIC System <b>Piergiacomo Cancelliere</b> , S Shiaroli, Ministry of Interior, Italian National Fire Rescue and Service, S Sassi, M Madeddu, P Canzani, FSC Engineering Milano, A Lucchini, A Stefanazzi, Politecnico di Milano, S Messa, E Anselmi, LS-Fire Testing Institute Como, A Villotti, Italian South Tyrol Fire Service, Italy.....	229
Modelling Fire Tests of Facade Systems Incorporating Aluminium Composite Material-Based Claddings <b>Virginie Drean</b> , E Guillaume, B Girardin, EFECTIS, France, <b>T Fateh</b> , EFECTIS UK-Ireland/ Ulster University FireSERT, UK .....	241
Modelling a Facade Fire Using Multiscale Experimental-Numerical Simulation Method <b>Eric Guillaume</b> , V Drean, B Girardin, F Benameur, M Koohkan, EFECTIS France & T Fateh, EFECTIS UK-Ireland/ Ulster University FireSERT, UK.....	255

## DETECTION & SUPPRESSION

The Performance of Multi-Sensor Detectors to Fire and False Alarm Sources <b>Raman Chagger</b> , BRE, UK.....	271
Relative Roles of Aqueous Film Formation and Foam Degradation on Fire Suppression by Foams Containing Fluorosurfactants <b>Katherine Hinnant</b> , S Giles, A Snow, R Ananth, U.S. Naval Research Laboratory & M Button, George Washington University, USA .....	283
Why Equal Flow from Different K-Factor Sprinklers Does Not Always Offer Equivalent Protection? <b>Yogish Gopala</b> , S D'Aniello & S Sienkiewicz, FM Global, USA.....	295
Full-Scale Fire Tests of High-Pressure Water Mist used as a Fire Barrier <b>Lasse Sorensen Laustsen</b> , Danfoss Semoc/EKJ Consulting Company, Denmark, <b>B Paulsen</b> Husted, Lund University, Sweden, <b>L Schiott Sorensen</b> , Technical University of Denmark.....	309

## SUPPRESSION

Experimental Investigation of Human Tenability and Sprinkler Protection in Hospital Room Fires <b>Simo Hostikka</b> , E Veikkanen, Aalto University, T Hakkarainen, T Kajolinna, VTT Technical Research Centre of Finland, Finland.....	321
---	-----

An Experimental Study of SMART Sprinkler Protection of High Rack Storage with Reduced Water Demand <b>Stanislav Kostka, Y Gopala, Y Xin &amp; S Dorofeev, FM Global, USA</b> .....	333
Impact of Fuel Packaging Arrangement on Fire Growth and Suppression in Rack Storage of Cartoned Commodities <b>James White &amp; Y Xin, FM Global, Research Division, USA</b> .....	345
Cooling of a Smoke Layer by a Sprinkler Spray: Validation of the FDS CFD Model <i>N Tenbült, Eindhoven University of Technology, J van Oerle, David den Boer, Peutz, Netherlands</i> .....	357
The Impact of Automatic Smoke and Heat Vents on Sprinkler System Performance <b>Alex Krisman, K Meredith &amp; Y Wang, FM Global, USA</b> .....	369
<b>FIRE PREVENTION &amp; SAFETY</b>	
The Fire & Life Safety Ecosystem – A Holistic Approach to Fire Safety <b>Birgitte Messerschmidt, NFPA, USA</b> .....	383
The Information Campaign “Action Against Fire” – Did It Work? <b>Lotta Alm, Lund University/BRIAB, Sweden</b> .....	393
Arson in Swedish Schools – A Societal Problem on the Rise <i>N Johansson, M McNamee &amp; Patrick van Hees, Lund University, Sweden</i> .....	403
<b>PYROLYSIS MODELING</b>	
Automated Fitting of Thermogravimetric Analysis Data <b>Morgan Bruns, Virginia Military Institute &amp; I Leventon, NIST, USA</b> .....	413
Thermal Decomposition of Vegetative Fuels <b>Isaac Leventon, NIST &amp; M Bruns, Virginia Military Institute, USA</b> .....	427
Material Burning Property Estimation Methodology and Validation <b>Fengchang Yang, J Hodges, B Lattimer, Jensen Hughes, USA</b> .....	439
Flame Heat Feedback Model for Simulation of Cone Calorimetry <b>Conor McCoy, J Tilles, S Stolarov, University of Maryland, USA</b> .....	449
<b>COMPARTMENT FIRES</b>	
The Effects on Compartment Pressurisation and Risk of Smoke Spread from Airtight Facades <b>Ulf Johansson, RED Fire Engineers, Australia</b> .....	461
Experimental and Numerical Study of Fire Event Involving Two Simultaneous Fire Sources in Confined and Ventilated Compartments <b>Hugues Pretrel &amp; W Plumecocq, IRSN, France</b> .....	477
Spatiotemporal Measurement of Light Extinction Coefficients in Compartment Fires <b>Lukas Arnold, A Belt, Forschungszentrum Jülich &amp; T Schultze, L Sichma, University Duisburg-Essen, Germany</b> .....	489
<b>FIRE SPREAD MODELLING</b>	
Assessment of an Engineering Method for the Contribution of Wood: Application to ISO 9705 with Different Linings Coverage <b>Bertrand Girardin, M Duny, V Drean &amp; G Auguin, EFECTIS, France</b> .....	503
Testing for Knowledge: Maximising Information Obtained from Fire Tests by using Machine Learning Techniques <b>Arjan Dexters, S Welch, G Jomaas, University of Edinburgh, UK, R Ripke Leisted, Technical University of Denmark &amp; Ruben Van Coile, Ghent University, Belgium</b> .....	515
Quantifying Heat Transfer Level Probability for Local Fire Exposures <b>Jonathan Hodges, S. Kraft, C Rippe, S Hunt &amp; B Lattimer, Jensen Hughes, USA</b> .....	527
Towards a Simplified Fire Dynamic Simulator Model to Analyse Fire Spread Between Multiple Informal Settlement Dwellings Based on Full- Scale Experiments <b>Antonio Cicione &amp; R Walls, University of Stellenbosch, South Africa</b> .....	539

## LARGE SPACE & CFD MODELLING

Influence of Compartment Geometry on the Occurrence of Backdraught  
**Chia Lung Wu**, National Kaohsiung University of Science and Technology, Taiwan & **R Carvel**,  
University of Edinburgh, UK ..... 553

An Analysis of a Method to Estimate the Effect of Wind on Natural Ventilation in Large Spaces  
**Nils Johansson**, Lund University, Sweden & **B Karlsson**, University of Iceland, Iceland..... 561

## HUMAN BEHAVIOUR IN FIRE

Influence of Dispositional and Situational Factors on Human Perceptions of Fire Risk  
**J Bonny**, Morgan State University & **Isaac Leventon**, NIST, Fire Research Division, USA ..... 569

The Older Adult – Associated Fire Risks and Current Challenges for the Development of Future  
Fire Safety Intervention Strategies  
**Peter Cassidy**, N McConnell & K Boyce, Ulster University, UK..... 581

New Design Approach for Fire Safe Hospital Wards  
**Paul Hoondert**, B Peters, DGMR Consulting Engineers, The Netherlands ..... 597

Developing a Notation for Mapping Evacuee Response  
**J Ouellette**, Federal Government of Canada, **Steven Gwynne**, Movement Strategies, UK, **R Brown**,  
Marine Institute, Memorial University of Newfoundland & **M Kinateder**, National Research Council  
Canada, Canada..... 609

Towards Enhancing Behavioural Realism in Virtual Reality Fire Evacuation Experiments  
**Silvia Arias**, J Wahlqvist, E Ronchi, H Frantzych, Lund University & **D Nilsson**, University of  
Canterbury, New Zealand..... 619

Reproducibility of Route Choice for Evacuation in Virtual Reality Comparison with Evacuation  
Experiment in a Large Scale Underground Mall  
**Yoshikazu Minegishi**, Takenaka Corporation, **K Kishida**, NTT facilities, **M Enomoto**,  
Akeno Facility Resilience Institute & **Y Hasemi**, Waseda University, Japan..... 631

A Method for Collecting Times and Routes on Stairs Focusing on Children in Schools  
**Rosaria Ono** & **M Vargas Valentim**, University of Sao Paulo, Brazil..... 647

Fire Evacuation and Exit Design Strategies for Cultural Centres  
**Rene Champagne**, University of Waterloo, **T Young**, **J Gales**, York University, Canada & **M Kinsey**,  
Arup, China..... 659

A Systems Engineering Approach to Analysing Emergency Evacuation Management in Large,  
Complex, Public Occupancy Buildings  
**Georgia Bateman** & **A Majumdar**, Imperial College London, UK..... 671

Hospital Evacuation Planning Tool for Assistance Devices (HEPTAD)  
**Michael Joyce**, P Lawrence & E Galea, University of Greenwich, UK ..... 683

Modeling Human Behavior in Emergency Stadium Fire Evacuations  
**D Aucoin**, **T Young**, **John Gales**, York University, Canada & **M Kinsey**, Arup, China ..... 695

Use of Statistical Approach on Stochastic Building Egress Simulations: Applied to Building Exodus  
and Pedestrian Dynamics  
**Quentin Jullien**, P Lardet, N Pinoteau, CSTB & J-L Paillat, A Thiry-Muller, LCPP, France..... 705

A Modelling Study on the Impact of Luggage and Airworthiness Certification on Aircraft Evacuation  
**Alexander Johansson**, Brandkonsultbyrån Sverige, **E Ronchi**, Lund University, Sweden, **S Gwynne**,  
Movement Strategies, UK/ National Research Council Canada, **A Thompson**, National Research  
Council Canada ..... 717

Physical Exertion During Ascending Evacuation While Carrying Load  
**A Velasco**, **A Halder**, **K Kuklane**, **Enrico Ronchi**, Lund University, Sweden ..... 729

Gaze Point in the Maze Set Evacuation Drills: Analysis of Eye Movement at the Indoor Wayfinding <b>Young-Hoon Bae</b> , J-Y Son, W-H Hong, Kyungpook National University, Y-C Kim, Hanyang University Erica & R-S Oh, J-H Choi, Pukyong National University, South Korea.....	739
Descending Evacuation on Staircases: How Accurate are Models in Representing Movement Without Merging? <b>Tomonori Sano</b> , Waseda University, Japan, E Ronchi, Y Wu, Lund University, Sweden, A Sekizawa, M Mizuno, S Park, Tokyo University of Science, K Fujii, National Research Institute of Fire and Disaster & H Kadokura, Tohoku Gakuin University, Japan.....	751
Evacuation in Institutions Serving People with Mobility Disabilities – Movement Speed Research Results <b>Gyorgy Veres &amp; J Rauscher</b> , Obudai University, Hungary .....	763
The Influence of Individual Impairment on Crowd Dynamics <b>Paul Georg</b> , A Hofmann, BAM & J Schumann, M Boltz, S Holl, Forschungszentrum Julich, Germany .....	775
Quantitative Risk Analysis and Numerical Investigation to Determine Critical Fire Scenarios in the Environment of Handicapped People <b>Andrea Klippel</b> , F Rabe, U Krause, Otto von Guericke University & A Hofmann, BAM, Germany .....	795

## **FIRE SAFETY ENGINEERING**

Research Needs for the Fire Safety Engineering Profession: The SFPE Roadmap <b>Chris Jelenewicz</b> , SFPE, USA.....	807
Africa: The Next Frontier for Fire Safety Engineering? <b>R Walls</b> , <b>Antonio Cicione</b> , Stellenbosch University, South Africa & <b>B Messerschmidt</b> , K Almand, NFPA, USA.....	819
Ten Fundamental Principles on Defining and Expressing Thermal Exposure as Boundary Conditions in Fire Safety Engineering <b>Ulf Wickstrom</b> , Lulea University of Technology, Sweden, S Hunt, B Lattimer, C Beyler, Jensen Hughes, USA & J Barnett, Basic Expert Pty Ltd, Australia.....	831
Fire Safe Ventilation Concepts Without Excessive Use of Fire Insulation <b>A Saeter Boe</b> , C Sesseng, <b>Ragni Fjellgaard Mikalsen</b> , RISE Fire Research AS, Norway.....	839
A Round Robin of Fire Modelling for Performance Based Design <b>Nils Johansson</b> , Lund University, J Andersson, RISE Safety and Transport, R McNamee, Brandskyddslaget & C Pelo, Ramboll, Sweden .....	853
Assessment of a Novel Approach for the Representation of a Fire Smoke Plume with a Hot Air Plume <b>Mohamed Beshir</b> , D Rush, Y Wang, University of Edinburgh, UK, B Merci, T Beji, Ghent University, Belgium .....	865
Fire Safety in Underground Power Plants – Design Challenges and Fire Safety Engineering in New Hydroelectric Power Plants in Iceland <b>David Snorrason</b> , S Kjaernested, Iceland Construction Authority, B Karlsson, University of Iceland, Iceland & N Johansson, Lund University, Sweden.....	877
Identification and Characterization of Design Fires to be used in Performance-Based Fire Design of CERN Facilities <b>Darko Perovic</b> , DBI, Denmark, P van Hees, D Madsen, J Pagels, W Malmberg, L Gren, Lund University, Sweden, O Rios & S La Mendola, CERN, Switzerland .....	891
Application of Design Bridge Fires: Fire Performance Assessment of a Highway Bridge <b>Jiayu Hu</b> , University of Edinburgh/Mott MacDonald, UK, T Lewis, Mott MacDonald, UK, R Carvel, University of Edinburgh, UK & A Usmani, The Hong Kong Polytechnic University, Hong Kong .....	903

## **FIRE RISK**

An Holistic Framework for Risk-Informed Performance-Based Building Regulation <b>Brian Meacham</b> , Meacham Associates, USA .....	911
---	-----

The MaxEnt Method for Probabilistic Structural Fire Engineering – Performance of Multi-Modal Outputs <b>Danny Hopkin</b> , <i>I Fu, OFR Consultants/University of Sheffield, UK, T Gernay, Johns Hopkins University, USA &amp; N Elhami-Khorasani, University at Buffalo, Canada &amp; R Van Coile, University of Ghent, Belgium</i> .....	925
A Dynamic Probabilistic Fire Risk Model Incorporating Technical, Human and Organizational Risks for High-Rise Residential Buildings <i>S Tan, D Weinert, P Joseph, Khalid Moinuddin, Victoria University, Melbourne, Australia</i> .....	937
AAMKS – Integrated Cloud-Based Application for Probabilistic Fire Risk Assessment <b>Adam Krasuski</b> , <i>The Main School of Fire Service, Poland &amp; S Hostikka, Aalto University, Finland</i> .....	951
<b>POOL FIRES</b>	
Fire Safety of Alcoholic Beverages in Retail Stores <b>Tuula Hakkarainen</b> , <i>T Korhonen &amp; J Vaari, VTT Technical Research Centre of Finland Ltd, Finland</i> .....	963
Tank Cars Engulfed In Fires: Heat Flux Measurements <b>Yoon Ko</b> , <i>C Lam, NRCC, Canada, A Luketa, D Lord, Sandia National Laboratories, USA &amp; A Butko, C Kirney, M Spiess, Transport Canada</i> .....	975
Simulated Pool Fire Testing and Modeling of a Composite Metal Foam <b>Afsaneh Rabiei</b> , <i>K Karimpour, North Carolina State University, Marc Janssens &amp; D Basu, SwRI, USA</i> .....	985
Numerically Solved Flame Spectra of an N-Heptane Pool Fire <i>H Bordbar, Simo Hostikka, Aalto University, Finland, P Boulet, G Erex, G Parent, Universitd de Lorraine/CNRS, France</i> .....	997
<b>FIRE INVESTIGATION</b>	
Fire Spread in Wind Turbine Generator Towers <b>Paulius Tekorius</b> , <i>Teknical Associates, Inc, USA</i> .....	1007
Evaluation of an Industrial Building Inferno - A Case Study <i>C Sesseng, K Storesund, Anne Steen-Hansen, RISE Fire Research, Norway</i> .....	1019
Warehouse Fires Ignited by Roof Mounted Photovoltaic Systems <b>Giovanni Cocchi</b> , <i>Forensic Experts, Italy</i> .....	1033
GPL Dispersion and Explosion Modelling <b>Alberto Tinaburri</b> , <i>F Ponziani, Ministry of the Interior, University of Rome "Tor Vergata", Italy</i> .....	1045
<b>FLAME RETARDANTS</b>	
New Brominated Flame Retardants via Alkylation by Pentabromobenzyl Bromide and Tetrabromoxylene Dibromide <i>M Gelmont, M. Yuzefovitch, D. Yoffe, IMI Institute for R&amp;D, Israel, E Eden, ICL-IP, Israel &amp; Sergei Levchik, ICL-IP America, USA</i> .....	1059
Flame Retardant Polyurethane: An Old, an Actual, and a Future Challenge <b>Bernhard Schartel</b> , <i>BAM, Germany</i> .....	1071
Intumescent Polypropylene: Interactions Between Physical and Chemical Expansion <b>Tsilla Bensabath</b> , <i>J Sarazin, M Jimenez, F Samyn, S Bourbigot, UMET, University of Lille, France</i> ..	1073
Flame Retardancy of Flax-Reinforced Composites <b>Sophie Duquesne</b> , <i>F Samyn, ENSCL, University of Lille, France, L Bonnaud, Materia Nova R&amp;D Center, Belgium</i> .....	1087
<b>COMBUSTION TOXICITY</b>	
Analysis of Fireground Contaminants From Retired Firefighting Turnout Jackets Using Headspace Sampling-Gas Chromatography-Mass Spectrometry (HS-GC-MS) <b>Adhiraj Shinde</b> , <i>B Ormond, North Carolina State University, USA</i> .....	1099
Evaluating Particle and Gas Transmission Through Firefighters' Clothing <b>Karolina Storesund &amp; R Fjellgaard Mikalsen, RISE Fire Research AS, Norway .....</b>	1117

An Experimental Evaluation of Fire Toxicity Test Methods <b>Per Blomqvist</b> , RISE Research Institutes of Sweden & A Sandinge, RISE Research Institutes of Sweden/DTU, Denmark.....	1129
Reproducing the Products of Flaming Combustion in the Microscale Combustion Calorimeter <b>Richard Walters</b> , L Speitel, R Lyon, FAA & N Safronava, Technology and Management International, USA.....	1143
<b>LARGE OUTDOOR AND WILDLAND FIRES</b>	
A Critical Review of Wildfire Models and Simulation Tools for WUI Applications <b>Islam Gomaa</b> , M Adelzadeh, N Benichou, A Bwalya, M Sultan, J Singh, A Gaur & N Elsagan, National Research Council Canada & S Gwynne, Movement Strategies, UK.....	1151
Performance Analysis of a Self-Protection System for Vehicles In Case of WUI Fire Entrapment <b>Elsa Pastor</b> , C Mata, A Agueda, M Valero, & E Planas, CERTEC, Universitat Politecnica de Catalunya BarcelonaTech & J Sebastia, Wildfire Security S.L., Spain .....	1163
Measurement of Drag Coefficients through Vegetation Canopy <b>Ryan Falkenstein-Smith</b> , K McGrattan, B Toman & M Fernandez, NIST, USA .....	1175
On the Use of Laboratory Scale Experiments to Better Understand Firebrand Generation from Large Outdoor Fires <b>Samuel Manzello</b> , NIST, USA & S Suzuki, NRIFD, Japan .....	1187
<b>FURNITURE</b>	
Experimental Investigation into the Influence of Ignition Location on Flame Spread and Heat Release Rates <b>Konrad Wilkens Flecknoe-Brown</b> , Danish Institute of Fire and Security Technology, Denmark/Lund University & P van Hees, Lund University, Sweden.....	1197
Fire Safe, Sustainable Loose Furnishing <b>Karolina Storesund</b> , A Steen-Hansen, RISE Fire Research, Norway & F Amon, S Haghighatpanah, I Larsson, RISE Fire Research, Sweden.....	1209
Progress and Status of the U.S. Consumer Product Safety Commission Upholstered Furniture Flammability Project <b>Andrew Lock</b> , D Miller, U.S. Consumer Product Safety Commission, USA .....	1223
Bedding Ignition, Vertical Flame Spread and Subsequent Thermal Impact on Underlying Mattress <b>Mark Gratkowski</b> , United States Department of Justice, ATF, USA.....	1235
<b>MATERIAL BEHAVIOUR IN FIRE</b>	
Effects of Thermal Conductivity on Flame Spread Over Carbon-Fiber Composites <b>Haiqing Guo</b> , R Walters, R Lyon, S Crowley, FAA, J Quintiere, University of Maryland, USA.....	1247
Small Scale Fire Test for Material Substitutions in Aircraft Cabin Materials <b>Richard Lyon</b> , R Walters, FAA & N Safronava, Technology and Management International LLC, USA.....	1257
Microscale Combustion Calorimeter Evaluation of Automotive Materials <b>Jason Huczek</b> & M Janssens, SwRI, USA.....	1269
Effect of Passive Protection on Fire Propagation of Electrical Cables <b>Dong Zeng</b> , Y Wang, FM Global, Research Division & D Boardman, FM Approvals, USA.....	1281
<b>TRANSPORTATION</b>	
Temperature Assessment of Steel Members Subjected to Fire Generated by Alternative Fuel Vehicles: Experimental Tests <b>Jean-Baptiste Tramoni</b> , C Thauvoys, CTICM, F Hanus, ArcelorMittal Global R&D, B Poutrain, BSPP, M Suzanne, A Thiry, LCPP, France.....	1295
Vehicle Fire Emissions with and Without Fire Service Intervention <b>Margaret McNamee</b> , M Runefors, Lund University & R McNamee, M Sandvik, Brandskyddslaget & F Amon, RISE Research Institutes of Sweden, Sweden.....	1307

Rail Car Interior Finish Heat Release Rate Requirements <b>Brian Lattimer, C Luo, S Kraft &amp; J Hodges, Jensen Hughes, USA</b> .....	1317
Reducing Rail Car Floor Assembly Test Article Size for Fire Resistance Approval Testing <b>Anil Kapahi, C Rippe, B Lattimer, Jensen Hughes, USA</b> .....	1329

## **FIRE RESISTANCE**

Design Methods for Wood-Based I-Joists Exposed to Fire – State-of-the-Art and Improvements <b>Katrin Nele Mager, Tallinn University of Technology, Estonia &amp; A Just, Tallin University of Technology, Estonia/RISE Research Institutes of Sweden</b> .....	1343
Fire Resistance of Building Assemblies – Results of 13 Full-Scale Wall Tests <b>Mohamed Sultan, M Adelzadeh, NRCC, Canada</b> .....	1355
Cross-Comparison of Screening Tests for Concrete Spalling <b>Siyimane Mohaine, F Robert, CERIB Fire Testing Centre, France, L Bostrom, RISE, Research Institutes of Sweden, M Lion, EDF – Direction Ingenierie et Projets Nouveau Nucleaire, France &amp; R McNamee, Brandskyddsaget, Sweden</b> .....	1367
Reduction of Fire Spalling of Concrete with Small Doses of Polypropylene Fibres <b>Robert McNamee, Brandskyddsaget, Sweden, J Sjoström, L Bostrom, RISE Research Institutes of Sweden, Sweden</b> .....	1379
Compressive Strength of Concrete in Cooling <b>David Rush, University of Edinburgh, UK &amp; C Yang, Nanjing University of Technology, China</b> .....	1391
Modelling the Deflection Response of Reinforced Concrete Flat Slabs During Heating <b>Norlizan Wahid &amp; T Stratford, L Bisby, University of Edinburgh, UK</b> .....	1403
Laboratory Fire Testing on Tunnel Segments: Suez Canal Tunnels Case <b>Pierre Pimienta, B-L Marie-Jeanne, P Rivillon, M Chenaf, CSTB, France, Martin Doll, Arcadis ESG, France, D Rizos, Tarek Amin, Orascom Constructions, Egypt, M Shamma, The Petroleum projects &amp; technical consultations co. "PETROJET", Egypt, M Bakhom, Cairo University, A Fouda, National Authority for Tunnels, Egypt, T Gewaily, Engineering Authority for the Egyptian Armed Force, Y Hussein, Housing and Building, National Research Center, Egypt, T Youssef, L'Université Française d'Egypte, Sa Saad, Arab Consulting Engineers (ACE), Egypt</b> .....	1415
Demonstrating Adequate Safety for a Concrete Column Exposed to Fire, Using Probabilistic Methods <b>Ruben Van Coile, Ghent University, Belgium, D Hopkin, OFR Consultants, UK, N Elhami Khorasani, University at Buffalo, &amp; T Gernay, Johns Hopkins University, USA</b> .....	1427

## **Late Papers**

### **Compartment Fires**

Compartment Fire Models <b>Ulf Wickström, Alexandra Bystrom, Lulea Technical University, Sweden</b>
--

# POSTER PAPERS

Page No

Preface .....	ii
Interflam 2019 Sponsors .....	xiii
Author Index	
Late Poster Papers	
<b>COMBUSTION PRODUCTS AND TOXICITY</b>	
Analysis of Fire Gases in Early Stages of Fire Development <b>Tanja Gnutzmann &amp; A Hofmann, BAM, Germany</b> .....	1439
Characterization of Soot from Fires in Laboratory Controlled Environments <b>Dan Madsen, J Barton, P van Hees, Div of Fire Safety Engineering, Lund University, Sweden, S La Mendola, O Rios, CERN, Switzerland, V Malmborg, L Gren, J Pagels, A Gudmundsson, Div of Ergonomics and Aerosol Technology, Lund University, Sweden, D Perovic, K Wilkens Flecknoe-Brown, DBI, Denmark &amp; B Paulsen Husted, Danish Institute of Fire and Security Technology, Denmark/Lund University, Sweden</b> .....	1441
<b>WILDLAND FIRES</b>	
Ember and Fire Modeling to Estimate Safe Separation Distance for Combustible Fences <b>Kuldeep Prasad, K Butler, E Johnsson, L Dubrulle, R McDermott &amp; A Maranghides, NIST, USA</b> .....	1449
<b>CODES AND REGULATIONS</b>	
Fatal Fires and Rescue Operations – A Review of Swedish Statistics Compared to other Countries <b>Martin Forssberg &amp; A Mossberg, Brandskyddslaget, Sweden</b> .....	1461
A Review of the Swedish Fire Safety Regulation – From the Industry’s Perspective <b>Axel Mossberg, R McNamee, H Nyman, M Olander, Brandskyddslaget, Sweden</b> .....	1473
The Grenfell Effect: A Review of U.S. Exterior Wall Regulations <b>J Beitel, Jensen Hughes &amp; Lorraine Ross, Intech Consulting Inc., USA</b> .....	1481
<b>COMPARTMENT FIRES</b>	
Experimental Study on Smoke Leakage Between Two Rooms using Real Scale Model <b>Yoshikazu Deguchi, Building Research Institute, M Kishiue, Obayashi Corporation, N Furukawa, M Kan, K Yamazaki, K Kayama, Y Ohmiya, Tokyo University of Science, Japan</b> .....	1491
Analyzing Smoke Evolution in Full-Scale Fire Experiments from Recorded Video <b>Jennifer Ellingham, B Forrest &amp; E Weckman, University of Waterloo, Canada</b> .....	1503
The Evolution of a Ventilation-Limited Fire in a Multistorey House <b>Bronwyn Forrest, E Weckman, P Senez, N Ryder &amp; M DiDomizio, University of Waterloo, Canada</b> .	1515
Effects of Fuel Geometry on the Burning Behavior in a Compartment <b>Yusuke Shintani, Takenaka Corporation, Japan</b> .....	1527
<b>FIRE INVESTIGATION</b>	
Quality Standards and Accreditation of Fire Investigation in the United Kingdom <b>Ciara Holland, D Crowder, BRE Global Ltd, UK</b> .....	1535

Alder Street Fire Investigation – Reconstruction and Smoke Toxicity Analysis <b>Ciara Holland &amp; D Crowder, BRE Global Ltd, UK</b> .....	1543
--	------

## **ELECTRICAL FIRES**

Ignition of Electrical Components Contained in a Closed Enclosure Adjacent to a Controlled Fire Source <b>Pascal Zavaleta, O Bouygues &amp; C Lapuerta, IRSN, France</b> .....	1551
---	------

Analytical and Experimental Investigation at Small-Scale of the Effect of Electrical Cable Type on Ignition <b>Romain Meinier, IRSN/ Ecole des Mines d’Ales, R Sonnier, L Ferry, Ecole des Mines d’Ales, &amp; P Zavaleta, IRSN, France</b> .....	1563
--	------

Experimental Thermal Performance of Unloaded Steel Stay-Cables in Fire: Preliminary Progress <b>B Nicoletta, J Gales, York University, Canada &amp; Panagiotis Kotsovinos, ARUP, UK</b> .....	1573
--	------

## **FIRE RESISTANCE**

Material Properties in Eurocode 2 – A Background Synthesis and Beyond <b>R McNamee, Brandskyddslaget, Sweden, Jean-Christophe Mindeguia, I2M, University of Bordeaux, P Pimienta, CSTB, France</b> .....	1581
---	------

Fire Resistance of Aluminium Glazed Partitions Depending on their Height <b>Bartłomiej Sedlak, Paweł Sulik, ITB, Poland &amp; A Garbacz, Warsaw University of Technology, Poland</b> .....	1593
---	------

Experimental Evaluation of the Thermal Behaviour of a Calcium-Silicate Board Subjected to a Natural Fire <b>Karim Van Maele, Etex Building Performance &amp; E Annerel, Etex Building Performance/Ghent University, Belgium</b> .....	1605
--	------

Equivalent Fire Severity in Steel Structures <b>Jonathon MacIntyre, A Abu, P Moss &amp; D Nilsson, University of Canterbury, New Zealand</b> .....	1617
---	------

Reactive Fire Protection for Structural Steelwork <b>Alexander Winthorst &amp; P van de Leur DGMR Consulting Engineers, Netherlands</b> .....	1627
--	------

Effects of Thermal Conditions of Steel on the Fire Performance of Thin Intumescent Coatings <b>Andrea Lucherini, C Maluk, The University of Queensland, Australia &amp; J Torero, University College London, UK</b> .....	1635
--	------

## **FIRE RISK**

Comparative Analysis of Fire Indexing Methodologies <b>Vasileios Koutsomarkos, D Rush, G Jomaas, A Law, University of Edinburgh, UK</b> .....	1647
--	------

Exploratory Analysis of Fire Risks Pertaining to Furanic Platform Chemicals <b>Anitha Muralidhara, INERIS, France/Avantium Chemicals, The Netherlands/Sorbonne Universites, France, G-J Gruter, Avantium Chemicals, The Netherlands, C Len, Sorbonne Universites, France/PSL Research University &amp; Guy Marlair, INERIS, France</b> .....	1661
---	------

Probabilistic Fire Risk Assessment in Buildings using Event Tree Analysis based on UK and USA Fire Statistics <b>M Manes, David Rush, University of Edinburgh, UK</b> .....	1671
--	------

## **FIRE SAFETY ENGINEERING**

The Measured Heat Release Rates of Transient Fuel Items found in Nuclear Power Plants <b>Jason Floyd, M DiDomizio, Jensen Hughes, USA, K McGrattan &amp; M Bundy, NIST, USA and M Randelovic &amp; A Lindeman, Electric Power Research Institute, USA</b> .....	1683
--	------

New Anglo-Polish Methodology for Fire Strategies Evaluation <b>Dorota Brzezinska &amp; P Bryant, Lodz University of Technology, Poland</b> .....	1695
---	------

Analysis on Emergency Response and Evacuation of Dongao Road Tunnel Combined Effect of Fire Protection Systems <b>Kang Che Ying</b> , Chien, S-W, Wu G-Y, Central Police University, Yeh, Y-L, Kaohsiung City Fire Department, Taiwan .....	1703
Application of Python Programming Language in Structural Fire Engineering - Monte Carlo Simulation <b>Ian Fu</b> , J Rickard, D Hopkin, M Spearpoint, OFR Consultants, UK.....	1713
Conservatism and Verification Methods in Fire Modelling <b>Wallace Zhong</b> , Y He, O Mirza, Western Sydney University, M Rowley, Fire and Rescue NSW & A Chubb, Smoke Control Systems, Australia.....	1725
Fire Safety Design and Wind Turbines <b>Aleksandra Zawadowska</b> , RISE Research Institutes of Sweden, Z Wang, RISE Research Institutes of Sweden/ Nanjong University, China, F You, J Jiang, Nanjing Technical University, China, A Dederichs, RISE Research Institutes of Sweden/ Technical University of Denmark and J Jancík, Technical University of Denmark/University of Žilina, Slovakia .....	1737
<b>FLAME RETARDANTS AND FR APPLICATIONS</b>	
Synthesis of Copper (II) – Zinc Molybdates as Smoke Suppressants for PVC Compositions <b>Antonio Rodolfo Jr</b> , Braskem S/A/State University of Campinas & LH Innocentini- Mei, State University of Campinas, Brazil.....	1745
Differences in Simultaneous Thermal Analysis and Time-to-Ignition of Wood Materials Treated with Water Glass Flame Retardants <b>Juraj Jancik</b> , L Makovicka-Osvaldova, University of Zilina, Slovakia & F Markert, Technical University of Denmark, Denmark.....	1757
Combining Fire Safety and Low Emissions in Bedding and Furniture: An Industry Challenge or Opportunity? <b>Paul Cookson</b> , Dow Europe GmbH, Switzerland.....	1767
<b>MATERIAL BEHAVIOUR IN FIRE</b>	
Ignition of Large Scale Polymers Exposed to High Radiative Heat Fluxes <b>Guillaume Rambaud</b> , CEA, DAM, GRAMAT, France, K Schmidt, B Roemer, Wehrwissenschaftliches Institut für Schutztechnologien, Germany.....	1769
Evaluation of Fire Performance of Sandwich Panels with Defects Tested in Horizontal and Vertical Orientation using Cone Calorimeter <b>Sanjay Pareek</b> , Nihon University, H Yoshioka, NILIM, T Noguchi, The University of Tokyo & T Hayakawa, TSV, Japan .....	1781
Calcium Aluminate Based Passive Fire Protection Systems: Main Technologies and Properties <b>Bruno Espinosa</b> , S Berger, IMERYS, France & C Alt, IMERYS, USA .....	1783
Thermal Behaviour of Laminated Bamboo Structures under Fire Conditions I Pope, A Osorio, <b>Juan Hidalgo</b> , C Maluk, The University of Queensland, Australia & J Torero, University College London, UK.....	1795
Relationship Between Non-Metallic Material Content and Fire Properties of Electric Cables <b>Katarzyna Kaczorek-Chrobak</b> , J Fangrat, Instytut Techniki Budowlanej, Poland .....	1807
Material Properties of Clay and Lime Based Plaster for Structural Design <b>Johanna Liblik</b> , A Just, B Maaten, M Sulg, S Pajusaar, Tallin University of Technology, Estonia & J Koppers, TU Braunschweig, iBMB, Germany .....	1813
<b>TRANSPORTATION</b>	
Flow Dynamics Near CNG Passenger Car After Opening of Safety Relief Device <b>Milan Jahoda</b> , J Ira, University of Chemistry and Technology & L Hasalova, V Vystrcil, Technical Institute of Fire Protection in Prague, Czech Republic.....	1825

New Energy Carriers and Additional Risks for User Safety in Tunnels <i>Christophe Willmann, Tunnel Study Center &amp; Benjamin Truchot, INERIS, France</i> .....	1833
LNG Powered Vehicles as an Emergent Transport Fire Risk: An Emergency Management on a Tanker Truck Crash <b>Vincenzo Puccia</b> , P Cancelliere, Ministry of Interior, Italian National Fire Rescue and Service, Italy..	1845
Reaction-to-Fire Properties of Maritime Composite Materials <b>Anna Sandinge</b> , A Dederichs, RISE Reseach Institutes of Sweden/DTU, Denmark & P Blomqvist, RISE Research Institutes of Sweden & F Markert, DTU, Denmark .....	1853
Improving Car Fires Heat Release Rate Modelling in CFD Codes <b>Paul Lardet &amp; G Giovannelli</b> , E Mehdi Koutaiba, CSTB, France .....	1865
<b>FLAME SPREAD</b>	
Effect of an adjacent wall on the upward flame spread over PMMA <i>F Tang, University of Warwick, UK/ Hefei University of Technology, China, L Chen, Hefei University of Technology, China, J Zhang, FireSERT, Ulster University, UK &amp; Jennifer Wen, University of Warwick, UK</i> .....	1873
Experimental and Numerical Investigations on Wood Lateral Ignition and Flame Spread <i>J Colombiano Virginie Dréan</i> ,, Efectis France, T Rogaume, B Batiot, F Richard, Universite de Poitiers, ISAE-ENSMA, France, F Talal, Efectis UK & A Nadjei, Ulster University, UK .....	1877
<b>HUMAN BEHAVIOUR IN FIRE INCLUDING EVACUATION</b>	
Burning Biases: Mitigating Cognitive Biases in Fire Engineering <b>Michael Kinsey</b> , Arup, China, M Kinateder, NRCC, Canada & S Gwynne, Movement Strategies, UK..	1882
Kinetic Architecture and Collective Intelligence for Fire Evacuation <b>Angella Johnson</b> , S Zheng, A Nakano, J-H Choi, University of Southern California, USA .....	1891
The Effects of Linguistic Cues on Evacuation Movement Times <b>Natalie Mazur</b> , J Gales, York University, Canada, R Champagne, University of Waterloo, Canada & M Kinsey, Arup, China .....	1903
Evacuation Under the Influence of Alcohol: A Laboratory Experiment <b>Malin Bjorkqvist</b> , A Broholm, Lund University, Sweden.....	1915
Pre-School Children's Knowledge of Fire and Evacuation <b>Jenny Blom &amp; H Frantzich</b> , Lund University, Sweden.....	1919
Walking Speed Reduction Rates at Intersections While Wayfinding Indoors: An Experimental Study <i>Y-H Bae, J-Y Son, W-H Hong, Kyungpook National University, Y-C Kim, Hanyang University Erica, Ryun-Seok Oh, J-H Choi, Pukyong National University, South Korea</i> .....	1929
Evaluation of Effective Cognition Area (ECA) of Signage Systems with Backlight in Smoke Condition <i>S-H Baek, R-S Oh, Jun-Ho Choi, Pukyong National University, Y-C Kim, Hanyang University Erica, Y-H Bae, W-H Hong, Kyungpook National University, South Korea</i> .....	1941
Influences of Firefighter's Movement on Evacuee's Crowd Flow on Stairs <b>Kosuke Fujii</b> , National Research Institute of Fire and Disaster, K Kawashima, Y Ohmiya, Tokyo University of Science & J-i Yamaguchi, Obayashi Corporation, Japan.....	1951
Validation of Pedestrian Simulation by Experiment data <b>Akihide Jo</b> , M Imanishi, T Sano, Y Ohmiya & J Yamaguchi, Takenaka Corporation, Japan.....	1959
Macroscopic Model for Fire Safety Evacuation: Evaluation and Comparison with a Microscopic Model <b>Alexis Marchand &amp; A Collin</b> , LEMTA, Universite de Lorraine, CNRS, France.....	1969
Selection of Vertical and Horizontal Routes by using Emergency Signs in Underground Stations <b>Jun Kubota</b> , T Sano, M Yasue, Waseda University, Japan.....	1975
An Investigation of the Proportionality of Safety Margins with Increased Ceiling Height in Relation to BS9999:2017 <b>Bill Hay</b> , Arup Fire, UK, I Sanderson & R Thomson, Glasgow Caledonian University, UK.....	1983

## MASS TIMBER

- Heat Flux Distribution on a Façade from Timber-Lined Compartments  
**Alastair Bartlett**, *G Kanellopoulos & A Law, The University of Edinburgh, UK* ..... 1995
- Tensile Strength of Wood in High Temperatures Before Charring  
**Henri Kuronen**, *E Mikkola, KK-Palokonsultti Oy & S Hostikka, Aalto University, Finland* ..... 2003
- Fire Performance of Laminated Timber Assemblies  
**Lindsay Ranger**, *C Dagenais, FPInnovations & N Bénichou, NRCC, Canada* ..... 2015
- Fire Dynamics in Large Open Timber Structures  
**Bronwyn Forrest**, *B Weckman, University of Waterloo & B Chorlton, J Gales, York University, Canada* ..... 2027
- Relative Fire Performance of Heritage and Contemporary Timber  
**Bronwyn Chorlton**, *John Gales, York University, Canada* ..... 2039

## POOL FIRES

- Lip Height Effect in Quadrangular Steel Containers  
**Einar Kolstad**, *V Frette & B Hagen, Western Norway University of Applied Science, Norway* ..... 2049
- The Chemical Structure of Medium-Scale Pool Fires  
**Ryan Falkenstein-Smith**, *K Sung, J Chen & A Hamins, NIST, USA* ..... 2059

## MODELLING

- Experimental Study of Smoke Movement Between Two Rooms Connected by a Stairwell  
*S Haouari Harrak, Université de Lorraine/ CSTB, Rabah Mehaddi, P Boulet, Université de Lorraine & E Mehdi Koutaiba, CSTB, France* ..... 2067
- Scoping Study on the Significance of Mesh Resolution Vs. Scenario Uncertainty in the CFD Modelling of Residential Smoke Control Systems  
**Danny Hopkin**, *C Hopkin, M Spearpoint, OFR Consultants, B Ralph, Foster + Partners, UK & R Van Coile, The University of Ghent, Belgium* ..... 2073
- FDS Simulations and Modelling Efforts of Travelling Fires in a Large Elongated Compartment  
**Johan Anderson**, *J Sjöstrom, A Temple, RISE, Sweden, M Charlier, ArcelorMittal Global R&D, Luxembourg, X Dai, S Welch & D Rush, University of Edinburgh, UK* ..... 2085
- Re-visiting NIST Reduced/Full-Scale Enclosures (R/FSE) Experiments (2007-2008)  
**Mohamed Beshir**, *A Cicione, Y Wang, S Welch, D Rush, University of Edinburgh, UK* ..... 2095
- Estimating Experimental Error for Fire Model Uncertainty Assessment  
**Marc Janssens & J Huczek**, *SwRI, USA* ..... 2109
- Characterising Natural Fires in Large Compartments – Revisiting an Early Travelling Fire Test (BST/FRS 1993) with CFD  
**Xu Dai**, *S Welch, D Rush, University of Edinburgh, UK, M Charlier, ArcelorMittal Global R&D, Luxemburg & J Anderson, RISE, Sweden* ..... 2111
- Water Curtains: From Experimental Tests to Near Field CFD Modelling  
**Fabio Alaimo Ponziani**, *A Tinaburri, Ministry of the Interior/University of Rome Tor Vergata & V Ricci, Ministry of the Interior – Italy* ..... 2123

## PYROLYSIS

- Validation of a Wood Combustion Model for use in Numerical Fire Modeling  
**Islam Gomaa**, *M Weinfurter, A Bwalya, NRCC, Canada & S Gwynne, Movement Strategies, UK* ..... 2135
- PVC and EVA/ATH Decomposition in Cone Calorimeter: Experiments and Modeling  
**Olivier Authier**, *A Amokrane, EDF R&D Lab Chatou, S Chatenet, EDF R&D Lab Chatou/ University of Lille, G Fontaine, S Bourbigot, University of Lille, France* ..... 2147

A Model for Pyrolysis and Oxidation of Two Common Structural Timbers  
**Aleksi Rinta-Paavola** & **S Hostikka**, *Aalto University, Finland*..... 2157

Thermo-Oxidative Behaviour of Polyamides and Combustion Products  
*M A Albat, A Schaberg, Roland Goertz, University of Wuppertal, Germany*..... 2169

Gases Evolved when Pine Wood is Heated using the Cone Calorimeter with a Nitrogen Atmosphere  
*A Irshad, University of Engineering & Technology, Pakistan, Gordon Andrews, H Phylaktou & B Gibbs, University of Leeds, UK*..... 2181

## VENTILATION AND SMOKE CONTROL

The Unintended Consequences of Improved Airtightness Levels on the Operation of Pressurization Systems in Tall Buildings  
**James McGonigal**, *Astute Fire Engineering Ltd, UK, I Sanderson, Glasgow Caledonian University, UK*..... 2191

Control of Ventilation Systems in the Event of Fire - A Practical Test  
**Gunther Schwabegger**, *IBS – Technisches Büro GmbH & J Huber, Institut für Brandschutztechnik und Sicherheitsforschung GmbH, Austria*..... 2201

How to Design a Proper Pressure Differential System in High-Rise Buildings: New European Standard in Comparison with Existing Codes  
**Michal Kozek**, *Gebäudeversicherung Kanton Zürich, Switzerland*..... 2209

Fire and Life Safety Improvements for the Vertical World  
**Justin Francis**, *Queensland Fire and Emergency Services, Australia*..... 2217

Hot Smoke Tests – Lessons for Better Design of Fire Protection Systems  
**Piotr Smardz**, *J Paliszek-Saładyga, INBEPO, Poland*..... 2229

## DETECTION AND SUPPRESSION

Influence of Surfactants on Cooling Efficiency of Water Droplets Impinging onto Hot Metal Surfaces  
**Joachim Soreng Bjorge**, *Q Radgivning AS/PDS Protek/ University of Bergen, S Arne Bjorkheim, M-M Metallinou, Western Norway University of Applied Science & T Log, Western Norway University of Applied Science/Equinor Karsto, Norway*..... 2237

Assessment of Correlations for the Evaporation of Droplets using a 1D, Spherical Heat Transfer Model  
**Jason Floyd**, *Jensen Hughes, USA*..... 2249

J-Value Analysis of the Retro-Fit of Sprinkler Systems to London's Existing High-Rise Residential Buildings  
**Matthew Arnott**, *D Hopkin & M Spearpoint, OFR Consultants, UK*..... 2263

## FACADES

Performance of Fire Breaks Installed Within EPS Insulated Façade Systems  
**Octavian Lalu**, *T Lennon, BRE Global Ltd, UK, R Darmon, Technical University of Cluj-Napoca, Romania & I Anghel, Police Academy, Fire Officers Faculty, Romania*..... 2274

Using CFD Tool to Determine Flame Propagation Characteristics over Exterior Video Cladding Wall  
*X Chen, California State University at Los Angeles & Frank Wang, Jensen Hughes, USA*..... 2281

Spreading Fire by the ETICS Façade  
**Paweł Sulik**, *B Sedlak, Building Research Institute, Poland*..... 2287

Development and Suitability of BS8414 – A Technical Review  
**Merlyn Forrer**, *Design Fire Consultants, UK*..... 2297

## CHALLENGING MEASUREMENTS

Comparison of HRR Results of Cone Calorimeter Tests: With and without FTIR Connected

**Tetsuya Hayakawa**, TSV, H Yoshioka, NILIM & K Yoshida, Yokohama National University, Japan ... 2309

Oxygen Index Test for use in Flammability Evaluation in Microgravity

**Makiko Fukuda**, Intec Co., S Takahashi, Gifu University, K Yoshida, Nippon Hakuyohin Kentei Kyokai, K Wakatsuki, Shinshu University, Y Nakamura, Toyohashi University of Technology, S Suga, K Katano, Suga Test Instruments Co & M Kikuchi, Japan Aerospace Exploration Agency, Japan ..... 2317

Investigation of Insulation Materials Based on Renewable Resources for Facades According to German Requirements

**Christian Northe**, J Koppers, J Zehfuss, Technische Universitat Braunschweig, iBMB, Germany..... 2327

## LATE POSTER PAPERS

### CODES AND REGULATIONS

Acceptability of Residential Fires – How Much is OK?

**David Rush**, University of Edinburgh & E Mills, Arup, UK

### FIRE SAFETY ENGINEERING

Reliability-Based Methodology for Determining the Effects of Sprinkler and Fire Brigade Intervention on Fire Resistance Design

**Iziengbe Inerhunwa**, Y C Wang, M Su, University of Manchester, UK

### MATERIAL BEHAVIOUR IN FIRE

Exploring the Influence of Stress and Heating Conditions on the Occurrence of Fire-Induced Concrete Spalling

**A Jazowski**, International Master of Science in Fire Safety Engineering, D Lange, **Cristian Maluk**, The University of Queensland, Australia

### FACADES

Experimental Methodology to Study the Fire Contribution of Cladding Materials

B Garvey, J Ogilvie, J Carrascal, D Lange, C Maluk, M McLaggan, A Osorio, J Hidalgo, The University of Queensland, Australia, J Torero, University College London, UK

### MODELLING

Application of the Computational Fluid Dynamics to Analyze Heat Transfer through Protective Clothing caused by Exposure to Flame

**Adam Puszkarz & W Machnowski**, Lodz University of Technology, Poland

### VENTILATION AND SMOKE CONTROL

Smoke and Heat Control System Based on Air Barrier

**Grzegorz Krajewski**, Building Research Institute, Poland
